OBJECTIVE

A Computer Science and Engineering graduate looking for a position in Software Development.

EDUCATION

Bs Computer Science and Engineering
Sep 2014 — Jun 2018

Istanbul Sehir University

GPA: 3.50

Courses successfully completed include:
- Object Oriented Programming (Java)
- Data Structures and Algorithms (Java)
- Computer Architecture (MIPS Assembly)
- Operating Systems
- Computer Systems (Apache Spark)
- Computational Genomics
- Bioinformatics
- Software (Agile, Django, GIT)
- Project Management
- Embedded Systems Design
- Advanced Algorithms

WORK EXPERIENCE

Safa Koleji
Jul 2014 — August 2014

Assistant Teacher

I worked as an assistant teacher for a summer course immediately after my graduation from high school. I taught young children how to read the Quran in the Arabic language.

TURKMEK Project
Sep 2014 — Jan 2017

Interpreter

I worked as a voluntary English - Turkish interpreter for this Project in which trainees from different parts of the world were offered the opportunity to participate in a short term technical/vocational training. This helped me develop my communication and teaching skills.

Hisar Chocolate
Aug 2015 — Sep 2015

Working Personnel

I had the opportunity to gain a hands-on experience in a factory that made chocolates. I also got the opportunity to develop my ability to work closely with a team.

Turk Telekom
Aug 2016 — Sep 2016

Intern

As an intern at Turk Telekom, I worked in the Networking Department where I had the opportunity to learn the basics of networking and telecommunication.

Final Education Centre   Aug 2016 — Aug 2017

English Teacher

As a part time English teacher, I taught students from all age groups. I attended activity lessons for young children around the ages of 7 and 13. I also had grammar lessons for adult students whose ages started from 15 and above. I have taught students in levels including elementary, pre-intermediate, and upper-intermediate. I also had one-on-one speaking lessons where I mostly focused on teaching my students how to speak English more fluently.

Istanbul Sehir University   Feb 2017 — Jun 2017

Teaching Assistant

During the spring semester in 2017, I was assigned the duty of a teaching assistant (TA) for Programming Practice course in Python in my university. As a TA my duties included; preparing weekly quizzes and grading them, tutoring students in weekly practice sessions to help them gain a deep understanding of the practical aspect of programming and implementation of some programming concepts, conducting office hours where I helped students solve problems they had with their mini projects and carrying out plagiarism checks for mini projects. Not only did this help me gain a more profound knowledge about the subject, it also helped improve my teaching, programming and analytical skills.

Istanbul Sehir University   Nov 2017 — Feb 2018

Teaching Assistant

During the fall semester in 2018, I was assigned the duty of a teaching assistant (TA) for Introduction to Programming course in Python in my university. As a TA my duties included; preparing weekly quizzes and grading them, tutoring students in weekly practice sessions, conducting office hours where I helped students solve problems they had with their mini projects or general questions about programming and conducting interviews for mini projects. As an introductory course, this helped strengthen my fundamental skills in programming, improved my teaching, presentation and analytical skills and also helped me gain a more profound knowledge about the subject.

Pendik Municipality   Feb 2018 — May 2018

Software Intern

I worked as an intern at the IT department of Pendik Municipality where I wrote Python scripts and developed a system monitor application for the department.

SKILLS

Language Skills:
- English (Fluent)
- Turkish (Advanced)
- Arabic (Intermediate)
- French (Beginner)
- Hausa (Native)
- Twi (Native)

Computer Skills:
- Python
- C
- HTML/CSS

- Selenium Webdriver
- MS Office (Word, Excel, PPT)
- JavaScript Object Notation (JSON)
- Java
- Sql
- Command Line
- Git
- Apache Spark
- Django

INTERESTS

- Computers
- Programming
- Books
- Languages
- Poems
- Documentaries
